

# AN INTRODUCTION TO SEMANE'S CAPABILITIES. DESIGNED FOR PEACE OF MIND.

Semane's involvement in a project typically commences at the pre-feasibility stage. We then take feasibility into detailed design, procurement, implementation and commissioning, before handing over the finalised project to you.

## How can we help you?

Project Scoping & Conceptual Studies <  
Feasibility Studies <  
Infrastructure Projects <  
Technical Evaluations, Audits and Investigations <  
Risk Assessments <  
Project Management, Controls and Administration <  
Construction Management <

## OUR PROJECT SOLUTIONS

## OUR ENGINEERING SOLUTIONS

Our clients trust us to deliver seamless, fit-for-purpose engineering solutions in the following disciplines.

- > Civil Infrastructural Solutions
- > Civil Structural Solutions
- > Electrical Solutions
- > Industrial Automation (Control and Instrumentation) Solutions
- > Project Management Solutions
- > Geotechnical Solutions
- > Bulk Materials Handling Solutions
- > Environmental Management Solutions
- > Allied Solutions (through collaborations)

The most respected companies in Sub-Saharan Africa draw on the full range of our expertise:

**conceptualisation, design, detailing, risk assessment, implementation of specialised engineering solutions and environmental services.**

They value:

- > Our innovative, fit-for-purpose and totally compliant engineering solutions
- > The depth of our industry knowledge and expertise
- > The accessibility of our key personnel
