Rham Equipment (Pty) Limited (REG No 1991/000222/07) is a Level 3 B-BBEE South-African OEM (Original Equipment Manufacturer) Company. Rham Equipment manufacture all our machines in-house and fully support the concept of local content and economic transformation.

Rham Equipment has been serving South Africa's mining industry since 1980, and employs more than 150 South African Citizens. Over the past 37 years, we have manufactured, delivered and commissioned in the region of 2000 units to South Africa, Zimbabwe, The Democratic Republic of the Congo, China and Australia. We have achieved a number of notable milestones over the years with our range of **safe, durable and cost effective products**.

In 1994 **Rham Equipment** extended its range of products to cover the hard rock section of the market. Our product range is supplied to coal, gold, platinum, copper and chrome mines.

Rham Equipment extended our range of mining equipment to include:

- Rham Load Haul Dumpers.
- Rham Dump Trucks for underground mining applications .
- Rham Face Drill Rigs.
- Rham Long hole - and Production drill rigs.
- Rham Roofbolters.

For the material handling section of the underground mining industry we produce:

- Trackless Diesel Material Transporters.
- Utility Vehicles that include scissor lifts, explosive carriers, lubrication cassettes, diesel- and oil bowsters as well as flat bed - or tipper type material cassettes. We built to customer specifications.
- Hydrostatic Conveyor-Belt drives.

Our head office and modern factory is conveniently situated approximately 15km North of OR Tambo International Airport in the province of Gauteng South Africa, and is in close proximity to the entire major road and highway network. Rham Equipment has four state of the art workshops (\pm 8000 m² under roofing).

The Company has achieved a level of business commensurate with its well proven reputation for excellence and service and maintains an ISO 9001 quality management programme in order to further endorse this position.
